Office Memorandum

Subject: Draft SoP for single window system and standard application form

In terms of the direction of Ministry of Power, BEE in consultation with Central Electricity Authority (CEA) has prepared a Standard Operating Procedure (SoP) for a single window system to expedite grant of electricity connections by Distribution companies (DISCOMs) to EV Charge Point Operators with minimum documentation. **A copy of draft SOP is enclosed.**

The draft (SOP) was presented to the Ministry of Power and it has been decided to share the draft (SOP) in public domain to seek stakeholder comments.

Accordingly, all stakeholders who are willing to provide inputs on the proposal may forward their comments on spandita@beeindia.gov.in and rahul.juyal@beeindia.gov.in within 30 days.

यह महानिदेशक, बीईई के अनुमोदन से जारी किया गया है।

सादर,

(समीर पंडिता)
निदेशक

To,

All Stakeholders (As per the enclosed list).

स्वहित एवं राष्ट्रहित में ऊर्जा बचाएँ Save Energy for Benefit of self and Nation

चौथा तल, सेवा भवन, आर० के० पुरम, नई दिल्ली-110066, वेबसाइट/Website : www.beeindia.gov.in

Draft Standard Operating Procedure (SOP) for Single Window System and Standard Application Form:

1. Objective:

1. Single Window System is a one-stop portal for release of electricity connection in a time-bound, transparent, and hassle-free manner. The proposed Single Window Portal is to expedite grant of electricity connection to public EV charging stations. State Discoms will provide a single window application to streamline and simplify the process for accelerated deployment of public EV charging stations within the stipulated timelines as specified in the Electricity (Rights of Consumers) Rules dated 22nd Feb 2024 and its amendments thereof. All requisite clearances for releasing the electricity connection and for setting up of EV charging station will be obtained by the applicant.
2. Another option for a single window system is to rope in SNAs for this. However, entrusting SNAs with the Single Window system including for seeking all clearances seem to be fraught with a risk of adding another layer of administration for the release of connections to charging stations. Secondly, most of the SNAs are Discoms themselves and obligating them to seek all clearances including of Petroleum & Explosives Safety Organisation (PESO) may not be productive as they are not having such experiences and are already struggling even with releasing the connections to general consumers in time.
3. Discom may not find it attractive to incur additional expenses in coordinating clearances for EV charging stations. Therefore, it is proposed that Discoms be directed to have online portal with visibility to SNAs and CNA. The proposed SoP for online portal for Discoms is as under:

2. Standard Operating Procedure (proposed):

1. State Discom shall develop an online portal if they don't already have, for receiving applications for grant of public EV charging connections online.
2. Charge Point Operator (CPO) to fill the application form and upload documents online including clearances from other agencies, if any. Online form may have details as provided at **Annexure A**.
3. Discom shall examine / review the application and verify the supporting documents submitted by CPO within 3 days of submission.
4. Post the review of the application, Discom may send back the application to the applicant, in case of any discrepancy, to be re-submitted within 3 days.
5. Once an application complete in all respects is received by DISCOM, DISCOM shall conduct technical feasibility of the desired location and provide electricity connection in terms of the timelines prescribed in the Electricity (Rights of Consumers) Rules dated 22nd Feb 2024.
6. Post the grant of the electricity connection by DISCOM, Charger Point Operator (CPO) shall visit the site, install the EV charger and the required electrical infrastructure.
7. Post installation, the CPO will submit the documents (as provided at **Annexure B**) through the online portal to SNA.
8. Discoms shall integrate their online application portal with the portals of concerned SNA and CNA(BEE) for visibility and monitoring the status of charging infrastructure installations.
9. SNA / DISCOM may charge a fee from the CPO for taking necessary clearances from relevant departments, wherever requested by the CPO.

Application form (proposed)

S. No.	Particulars	Response
1.	Name of Applicant / Organization	
2.	Company registered under (Indian Companies Act / Individual / Co-operative Society / Any Other Corporate Entity) Company Registration Certificate / Memorandum of Understanding to be submitted as proof)	
3.	Company registration number	
4.	Registered Address	
5.	Present activity/business carried by the applicant/ organization	
Details of Authorised person		
6.	Name	
7.	Designation	
8.	Mobile Number	
9.	Email ID	
10.	ID number of any Government ID proof	
Location details of proposed site		
11.	Type of Location (Retail Outlets / Public / Semi-public (Restricted)	
12.	Address of location along with Area Pin Code	
13.	City	
14.	District	
15.	Geo-graphical co-ordinates of Location (Latitude and Longitude)	
16.	Details of Network Service Provider	
17.	Existing load (kW / kVA), if any	
18.	Desired Load (kW / kVA)	
19.	Supply type (LT / HT)	
20.	Tariff category	
EV Charger details		
21.	Type of Charger (CCS / Type 2 / CHAdeMO / Bharat AC-001 / Others)	
22.	Number of EV chargers	
23.	Capacity of each charger (kW)	
24.	No. of connector guns	
25.	Total connected load	

Documents required from the CPO.

- 1) Lease agreement between Land Owning Agency and the CPO.
- 2) Power of Attorney confirming powers on the person(s) who are competent to execute the MoU / agreement.
- 3) Certified copy of Company Registration Certificate
- 4) Copy of PAN Card
- 5) Copy of GST Registration
- 6) Self-Attested copy of Govt. ID Proof of the Authorised Representative
- 7) Petroleum & Explosives Safety Organization (PESO) Approval in case electricity connection required for installation of EV chargers at Petrol Pumps / Gas Stations, shall be sought by CPO.
- 8) NOC from fire department (if EV charger is to be installed in the basement of a building).
- 9) EV Charger test certificate from NABL Accredited Lab.
- 10) Undertaking on Stamp Paper for using power supply only for public EV charging.
